Important Instructions:

1. Solar PV capacity up to two times of pump capacity in kW is allowed under the scheme.
2. Central Finance Assistance of 30% of the benchmark cost or the tender cost, whichever is lower, and State Government will give a subsidy of 30%; and the remaining 40% will be provided by the farmer. Bank finance may be made available for farmer's contribution, so that farmer has to initially pay only 10% of the cost and remaining up to 30% of the cost as loan.
3. TPSODL will sign a power purchase agreement with solar power plants installed for solarisation of individual grid connected pumps under this scheme with Power purchase cost of Rs.3.60/- per unit.
4. The minimum energy consumption by the farmer from the solar installations has to be at annual load factor of 15% for effective use of solar energy.
5. The self-consumption of power by farmer for irrigation purpose will be billed at RST rate approved by the Commission from time to time.
6. All scheme guidelines as per through office memorandum dated 8th March, 2019 by MNRE and consecutive memorandums on this scheme.
7. All other conditions are as per OERC order for case no 41/2022 and 62/2022 and amendments to order time to time.

I hereby give my consent towards application for solarization of grid connected pump under PM KUSUM-C scheme. All the details of the scheme have been described to me before the application.
