TPSODL/Safety/51 "Observance of Road Safety Week" Date: 10.01.2023

Dear All,
Safety is our core value, over which no business objective can have higher priority. Road safety is one of the critical risk recognised globally. Poor vehicle and road conditions, drivers capability and complacency causes many accidents on roads. As road travel is part of our business requirement, the road safety risk is systematically managed with various interventions at TPSODL.

In view of upcoming Observance of National Road Safety Month - 2023 (Mid-Jan. to Mid-Feb. 2023) special **theme based Safety Drive on "Road Safety"** is taken for the month of Jan'23.

Safe vehicle, Safe Drive and Safe Journey are three important pillars for ensuring Road Safety. Various activities on each category are listed below for reference to carry out during this special drive.

Vehicle Safety

- Mass inspection drive for company owned and hired vehicles
- Vehicle maintenance camp by service partners
- Ensure technology interventions like GPS tracking, Reverse camera, speed governors etc.

Driver Safety

- Drivers Health Check up
- Defensive Driving Training (DDT) for drivers
- Road Safety Commitment from drivers
- Road Safety Awareness through display of instructions, quiz, observation / feed back etc.

Journey Management

- Journey risk assessment to identify risky areas for driving
- Mass road safety awareness drive

The Road Safety Week program are planned to execute at each Division, Sub Division, Section level. Respective Divisional Safety Officer will coordinate with concern Division / Sub Division / Section in charge for driving the message on Road Safety across all levels. All Division / Sub Division / Section in-charge are requested to extend their support and with the leadership to make it grand success.
